MRC 0001416 Prodigy Advance 2 Wireless

And they say Digitrax manuals are ambiguous..ok, after reading the Advanced^2 manual, I think what they mean when they say enter 0-9 is to use the number keys and put in whatever sort of address you want - not that you can just use 0-9. So if you want to make the loco address 1234, just put in 1234 at the Addr prompt.

Problem with my MRC Prodigy Advance2 - Model Railroader ...

I am currently having two issues with my MRC Prodigy advance squared system:

1. None of my locomotives will program on the program track, regardless of manufacturer or decoder type. I've checked for snug connection of wires, correct connection and any of the basics. However, they program fine on the main.
